Senior Project Manager – Payment/Fintech

Description

Lead the organizations planning activities on new programs, projects, and functional capabilities to the point of hand-off to the development execution team.
ABOUT US

WHAT WE DO | Our talented teams create tech that connects brands to people via meaningful content that positively impacts their lives. By understanding where the markets are going and where technology fits in; we use our knowledge to identify solutions that boost businesses and shift user experiences.

WHY WE'RE DIFFERENT | What makes us a leader in our industry, and different from other international digital tech companies, is our ability to tailor or custom-create our offering to solve business challenges

WHERE YOU FIT IN | We aim to build an inspiring organization with an engaged and high-performing culture. We believe in possibilities. We connect to the future. Think of unlimited digital potential, global reach, limitless content, unreal experiences, and real connections... now imagine the direct impact you could have in this landscape. If you are eager to work in an inspiring, dynamic environment and collaborate with like-minded people, we want to hear from you!

Responsibilities

As a Senior Project Manager will be responsible for the end-to-end management of projects / Programs within mPay. This role works on Payment projects and serves Telco industry. The Senior Project Manager's responsibilities include:

- **Project Planning:** Develop comprehensive project plans, including scope, goals, deliverables, timelines, and resource allocation.
- **Resource Management:** Allocate resources, assign tasks, and monitor team progress to ensure project timelines are met and quality standards are maintained
- **Risk Management:** Identify potential risks and issues, develop mitigation strategies, and lead problem-solving efforts to keep projects on track
- **Stakeholder Communication:** Regularly communicate project status, updates, and potential roadblocks to internal and external stakeholders, ensuring alignment and transparency.
- **Budget Management:** Track project expenses, manage budgets, and ensure projects are completed within financial constraints.
- **Quality Assurance:** Implement and monitor quality control processes to deliver projects that meet or exceed client expectations.
- **Team Leadership:** Lead and motivate cross-functional teams, fostering a collaborative and productive work environment
- **Change Management:** Proactively manage changes in project scope, identify potential impacts, and communicate changes effectively to all
